Thank you for subscribing to SellerAI — the AI-powered Amazon listing generator built specifically for Chinese cross-border sellers. Whether you're launching your first product or managing a 100-SKU catalog, SellerAI saves you hours of copywriting and helps your listings rank higher on Amazon.com.

This guide covers everything you need to get started — from your first listing to pro tips for A9 optimization.

 What's Included in Your Subscription

- AI Title Generation — A9-optimized titles within Amazon's 200-character limit, packed with high-volume keywords
- 5 Bullet Points — Features + benefits format — no generic filler. Every word sells.
- Backend Search Terms — Hidden keywords Amazon actually indexes for search visibility
- Native American English — Reads like a US-born copywriter wrote it. No Chinglish, guaranteed.
- Multi-Category Support — Home & Kitchen, Sports & Outdoors, Electronics, Beauty, Toys, and more
- One-Click Generation — Fill 3-5 fields, click Generate, get your listing in 3 seconds
- Unlimited Generations — No per-listing cap. Generate as many as you need.
- Copy-Paste Ready — Output formatted for direct paste into Amazon Seller Central or 店小秘 ERP
- Free Updates — New features and optimizations included in your subscription

□ How to Use SellerAI

Go to the link provided in your Gumroad purchase confirmation. No download or installation required — it's 100% web-based.

Fill in the simple form: product name, material, size, key features, and target audience. The more details you provide, the better the output.

SellerAI's AI engine processes your input and creates a complete Amazon listing — Title, 5 Bullet Points, and Backend Search Terms — all optimized for A9.

Review the generated listing. Make any tweaks you want, then copy-paste directly into Amazon Seller Central or your ERP (店小秘).

Generate as many listings as you need. Each one takes just a few seconds.

□ Pro Tips for Best Results

- Include material, size, and weight in your product description — these are A9 ranking factors
- Mention use cases (e.g. 'perfect for camping, gym, office') to broaden search match
- If you have competitor ASINs, check their top keywords and include them in your input
- Use the Batch Mode (coming soon) to generate 50+ listings from a CSV upload
- Save your best-performing listings as templates for similar products
